ADDRESS OF OWNER 9629 Pleasant View Lane ZIP 28212

LOCATION OF PROPERTY Garden Road (STREET OR COUNTY ROAD)

SUBDIVISION _____ LOT NO 15-19 BLOCK NO A

PLOT PLAN

This is to certify that a percolation test has been run and an onsite inspection made by the Mecklenburg County Health Department on the lot described above. The said test was conducted on that portion of the lot as indicated on above plot.

The percolation rate determined by the test was 45 min/in The site is approved for the installation of an individual septic tank wastewater treatment system with subsurface absorption effluent discharge subject to the following terms and conditions:

1. A permit to install said wastewater treatment system shall be issued by the Mecklenburg County Health Department prior to the beginning of any construction of the building and the wastewater treatment system on the said lot.
2. The size of the septic tank wastewater treatment system which must be installed is determined by the Health Department prior to issuance of permit based on the percolation rate obtained above and on the size and type of building constructed thereon.
3. This approval is valid for the system as installed at the immediate area where the percolation test was run.
4. This approval is void if any grading or construction including the cutting of trees is performed on the lot which in the opinion of the Health Department renders the area where the percolation test was run unsuitable for the installation, construction, operation and or repair of such a system.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina State Board of Health and the Mecklenburg County Board of Health which were in effect on the date of issuance and is void at any time in the future prior to the completion of the system, these laws, rules, and regulations are changed such that this approval would not have been granted had the new or revised laws, rules, and regulations been in effect on the issue date.
