PLOT PLAN

This is a report of the investigation of the soil and site conditions made by the Mecklenburg County Department of Environmental Health in accordance with the applicable regulations. The investigation was conducted on that portion of the lot designated on the above plot plan.

The permit is recommended for the **Provisionally Suitable** lot as approved for the installation of an individual single family wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions:

1. A permit for the wastewater treatment system shall be obtained from the Mecklenburg County Department of Environmental Health prior to any construction of the wastewater treatment system on the lot.
2. The size of the septic tank and the absorption area shall be determined by the Mecklenburg County Department of Environmental Health at the time the permit is issued based on the criteria listed above and on the proposed plumbing fixtures.
3. The system shall be installed in the designated area and shall meet or exceed the minimum requirements for the system installation as specified by the Mecklenburg County Department of Environmental Health.
4. The property owner shall be responsible for maintaining the system in accordance with the requirements of the Mecklenburg County Department of Environmental Health and shall be responsible for correcting any malfunction of the system that may occur.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to the start of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules and regulations been in effect on the issue date.
