PLOT PLAN 178

This is to certify, that a soil investigation and or site investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The said investigation was conducted on that portion of the lot as indicated on the above plot. The permeability rate determined by the investigation was PROVISIONALLY SUITABLE. The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions:

1. A permit to install, construct, alter or repair the sewage system on the said lot must be obtained from the Mecklenburg County Department of Environmental Health prior to any construction of the building using the wastewater treatment system on the said lot.
2. The size of the septic tank required for the said lot will be determined by the Mecklenburg County Department of Environmental Health at the time of application for a permit to install any sewage system on the said lot as shown above and on the size and type of building to be served thereby.
3. This approval is valid only for the system as described on the application and as indicated on the above plot plan.
4. This approval is valid for a period of five years from the date of issuance or until such time as the Mecklenburg County Department of Environmental Health renders the said lot unacceptable for system installation due to alterations, obstructions, changes and/or repair of such a system.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules, and regulations been in effect on the issue date.
