SOIL INVESTIGATION REPORT

Date of Investigation June 14, 1977 APT NO. 6480

Owner T. M. Turner Jr.

Location of Property Lancelot Dr. lot No. 16 Block A

Soil Suitability Ratings Table No. 227-095-16

Soil Properties	Soil 1	Soil 2	Soil 3	Soil 4
1. Soil Series	HELENA	Chewacla		Cecil
2. Soil Slope	suitable 3-16%	—		suitable 3-8%
3. Soil Depth	unsuitable <48"	—		suitable >48"
4. Soil Texture	unsuitable silt/expanding clays	—		provisionally suitable clay
5. Soil Structure	unsuitable massive	—		provisionally suitable blocky
6. Restrictive Horizons	—	—		—
7. Soil Drainage	unsuitable perched high water table	unsuitable poorly drained		suitable water table >6'
8. Soil Permeability (Percolation Rate)	unsuitable slow >200 min/in	unsuitable seasonal high water table <18"		provisionally suitable moderate 60 min/in
9. Other	—	unsuitable floods	unsuitable frost action	—
10. Overall Rating	unsuitable	unsuitable		provisionally suitable

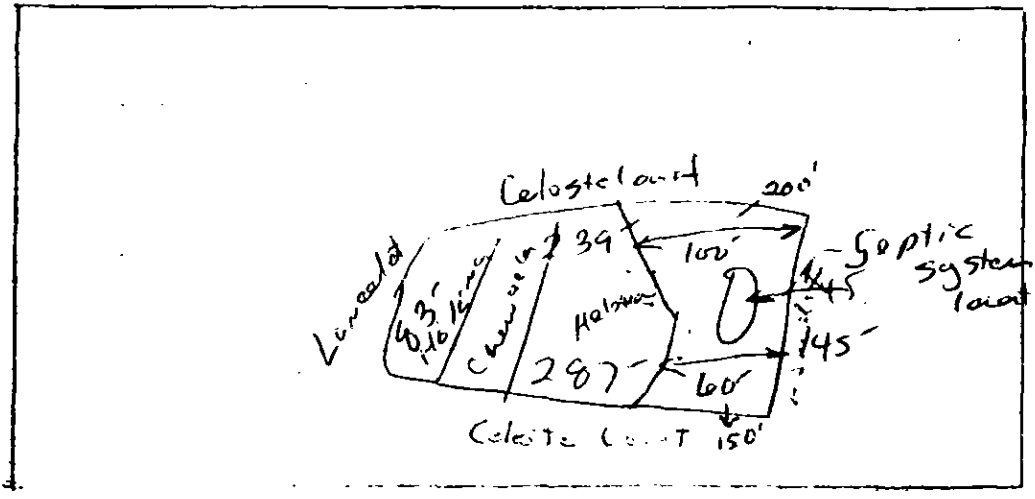

Recommendations Based on this investigation an adequate area of provisionally suitable soils was found for installation of aseptic tank system. System design should be based on a percolation rate of 60 min/in and should be placed in the area of Cecil soils.

SUBDIVISION LOT NO 16 BLOCK NO. 95

PLOT PLAN

This is to certify that a soil investigation and site inspection was made by the Mecklenburg County Department of Environmental Health on the 16th day of June, 1977 and that said investigation was conducted on that portion of the lot designated on the plot plan. **Provisionally Suitable** The permeability rate determined by the investigation was **60 min/in.** The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface soil absorption effluent discharge subject to the following terms and conditions:

1. Approval is granted only for the specific system layout shown on the Mecklenburg County Department of Environmental Health plot plan. Any change in the location of the wastewater treatment system must be approved by the Health Department.
2. The size of the system must be adequate to serve the number of bedrooms which will be determined by the Mecklenburg County Department of Environmental Health. The system must be sized according to the soil permeability rate obtained above, and in accordance with the Rules Governing Individual Water Supply and Sewage Disposal Systems.
3. The septic tank and the absorption field must be located in the areas designated acceptable for system installation on the plot plan.
4. The approval is granted only for the system as described above. Any deviation from the plot plan, soil evaluation performed on the lot and/or the Mecklenburg County Rules Governing Individual Water Supply and Sewage Disposal Systems may void this approval. Only the area indicated as acceptable for system installation on the plot plan is to be used for the septic system.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new revised laws, rules and regulations been in effect on the issue date.

SUBDIVISION LOT NO 16 BLOCK NO 95

PLOT PLAN

This is to certify that a soil investigation and on site investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The soil investigation was conducted on that portion of the lot as indicated on the above plot **Provisionally**
The permeability rate determined by the investigation was **Suitable** The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions

1. A permit to install, construct, alter or repair the septic system shall be obtained from the Mecklenburg County Department of Environmental Health prior to the beginning of any construction. Installation of the wastewater treatment system on the said lot
2. The size of the septic tank wastewater treatment system which may be installed will be determined by the Mecklenburg County Department of Environmental Health prior to the installation based on the permeability rate obtained above, and on the size and type of building constructed thereon
3. This approval is valid only if the system is installed on the immediate area indicated as acceptable for system installation on the above plot
4. This approval is void if any grading, filling or construction, including the cutting of trees, is performed on the lot which in the opinion of the Mecklenburg County Department of Environmental Health renders the area indicated as acceptable for system installation unsuitable. Installation, construction, alteration or repair of such a system

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules and regulations been in effect on the issue date.

NAME OF OWNER Turner (LAST) Ted (FIRST) M. (MIDDLE)

ADDRESS OF OWNER 9125 Raintree Lane, Matthews, NC ZIP 28105

LOCATION OF LOT Corner: Lancelot Drive & Celeste Court (STREET OR COUNTY ROAD)

SUBDIVISION _____ LOT NO. 16 BLOCK NO. 95

MAP BOOK NO. _____ PAGE NO. _____

The above specified lot is approved by the Mecklenburg County Department of Environmental Health for the installation of an individual septic tank system with subsurface, soil absorption, effluent discharge based on the soil investigation, on an on-site inspection of the said lot; and upon the information supplied in the "Application for an Installation, Construction, Alteration, and/or Repair Permit", number 6480. This approval is subject to the following terms and conditions:

1. That the nitrification field be installed, constructed, altered and/or repaired in the same area where the soil investigation was run.
2. That an "Installation, Construction, Alteration, and/or Repair Permit" be issued and in full force and effect when the system is installed, constructed, altred, and/or repaired and that the system be installed in accordance with same

This approval may be revoked and the building inspection department requested to revoke any building permit(s) which have been issued to authorize construction on the said lot if at any time it is determined that any information contained in the "Application for an Installation, Construction, Alteration, and/or Repair Permit" is not correct or is untrue or that the septic-tank system is not being installed, constructed, altered and/or repaired in accordance with a valid Installation, Construction, Alteration, and/or Repair Permit
