PLOT PLAN

This is to certify that a soil investigation and on-site investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The soil investigation was conducted on that portion of the lot as indicated on the sketch and **PROVISIONALLY SUITABLE**

The permeability rate determined by the investigation was The said lot is approved for the installation of an individual septic tank and water treatment system with subsurface soil absorption effluent discharge subject to the following terms and conditions:

1. A permit to construct the wastewater system must be obtained from the Mecklenburg County Department of Environmental Health prior to construction of the wastewater treatment system on the said lot.
2. The size of the septic tank and water treatment system must be approved by the Mecklenburg County Department of Environmental Health prior to issuance of the permit. The size and type of system must be shown on the site plan.
3. This approval is valid only for the system installation on the attached plat.
4. The approval is for the Mecklenburg County Health Department Rules which are in effect at the time of application for permit. Any system which is acceptable for system installation at the time of application for permit.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system these laws rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules and regulations been in effect on the issue date.
