NAME OF OWNER Kirkpatrick (LAST) John (FIRST) B. (MIDDLE)

ADDRESS OF OWNER 2229 Charlotte Drive, Charlotte, N. C. ZIP 28203

LOCATION OF LOT Withers Cove Road (STREET OR COUNTY ROAD)

SUBDIVISION _____ LOT NO 29 BLOCK NO. _____

MAP BOOK NO _____ PAGE NO _____

The above specified lot is approved by the Mecklenburg County Department of Environmental Health for the installation of an individual septic tank system with subsurface, soil absorption effluent discharge based on the soil investigation, on an on-site inspection of the said lot, and upon the information supplied in the "Application for an Installation, Construction, Alteration, and/or Repair Permit", number 12767. This approval is subject to the following terms and conditions:

1. That the nitrification field be installed, constructed, altered and/or repaired in the same area where the soil investigation was run.
2. That an "Installation, Construction, Alteration, and/or Repair Permit" be issued and in full force and effect when the system is installed, constructed, altred, and/or repaired and that the system be installed in accordance with same

This approval may be revoked and the building inspection department requested to revoke any building permit(s) which have been issued to authorize construction on the said lot if at any time it is determined that any information contained in the "Application for an Installation, Construction, Alteration, and/or Repair Permit" is not correct or is untrue or that the septic-tank system is not being installed, constructed, altered and, or repaired in accordance with a valid Installation, Construction, Alteration, and/or Repair Permit * will use existing system

PLOT PLAN

This is to certify that a soil investigation and on-site investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The soil investigation was conducted on that portion of the lot as indicated on the above plot.

The permeability rate determined by the investigation was **PROVISIONALLY SUITABLE**. The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions:

1. A copy of the application for a water treatment system shall be submitted to the Mecklenburg County Department of Environmental Health prior to the beginning of construction of the wastewater treatment system on the said lot.
2. The size of the approved septic tank wastewater treatment system which must be installed will be determined by the Mecklenburg County Department of Environmental Health at the time of application for the permit(s), rule obtained above, and on the size of the house, building or facility proposed thereon.
3. This approval applies only to the system as installed on the immediate area indicated as acceptable for system installation on the above plot.
4. This approval is based on the soil's engineering characteristics found in the soil profile(s) observed and described by personnel of the Mecklenburg County Department of Environmental Health to be performed on the lot which the owner or his authorized agent has indicated as acceptable for system installation. Any deviation from the area indicated as acceptable for system installation may void this approval. Any alteration of the soil's characteristics by excavation, construction, grading or filling may void this approval. Any change in the design, type or location of the system may void this approval.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the newer revised laws, rules, and regulations been in effect on the issue date.
