RE: Property located off Walkers Ferry Road
FILE: 8323A/451B
PARCEL: 113-171-01

Dear Mr. Baker:

At your request, a field investigation was conducted on the property designated above for the purpose of determining site suitability for the installation of a ground absorption sewage disposal system. The property was found to contain a limited area of soils which were classified as PROVISIONALLY SUITABLE for such an installation. A copy of the Site Evaluation Report (Serial Number 12655) is enclosed for your information.

While this classification indicates the site is acceptable for the installation of a septic tank system, no specific system or plans have been approved. The area available for such an installation may impose limitations on the size and/or type construction permitted on the lot. Our review process begins upon receipt of an Application for an Improvement Permit accompanied by a plot plan drawn to scale with accurate dimensions indicated detailing the location of existing well or type sewage disposal systems (if applicable), setbacks, and utility easements. Proposed buildings, etc. must be drawn on the plot plan to allow sufficient remaining space for the sewage disposal system and well. The well should be located 100 feet from any part of any sewage disposal system (including those located on adjacent properties).

Please note that this classification may be changed if any filling, grading or construction (including the drilling of a well) is performed on the lot which without prior approval from this Department. Current regulations in effect are "Laws and Rules for Sanitary Sewage Collection, Treatment, and Disposal: 15A NCAC 18A .1900, August, 1991". Changes in regulations may impact future approvals on this lot.

If there are any questions concerning this matter, please contact Bill Marlin at 336-5574.

Sincerely,

Kelly Randall FOR GENE VAUGHAN
