SERIAL № 12176

Permission is hereby given to ✓ Install or Construct, ____ Alter or Repair the individual septic tank wastewater treatment system with subsurface, soil absorption, effluent discharge as specified herein at the described location. This permit is granted based upon the information supplied in the application dated 3/17/88. All work shall be completed on or before 10/28/88, after which date this permit shall be null and void. The system shall meet all of the construction requirements of 10 NCAC 10A .1900 which are in effect on the date of the granting of this permit. A Certificate of Completion or an Operation Permit must be obtained from the Mecklenburg County Department of Environmental Health before any system can be covered up or placed into service. The issuance of this permit does not in any way guarantee that the system anticipated to be constructed will operate properly, or relieve any person now or hereafter owning, controlling or using such system from any liability resulting from the failure of the system to operate properly.

PLOT OF SYSTEM

Liquid Capacity of Septic Tank 1500 gallons

Liquid Capacity of Dosing Tank ____ gallons

Tank Construction RCC

Absorption and/or Nitrification Lines:

Trench Width 3 feet

Total Line Length 400 feet

Number of Lines 5

Depth of Stone 12 inches

Distance from House >5 feet

Distance from Property Line >10 feet

Distance from Well >50 feet

NAME OF OWNER Jeffrey L. Bost

LOCATION OF PROPERTY 19322 Yachtman Dr

Comments: 5 trenches 3'x80'x12" stone; straw cover

SOIL INVESTIGATION REPORT

NAME OF OWNER Knox, (LAST) Russell (FIRST) B. (MIDDLE)
Knox, Bobby B.

ADDRESS OF OWNER P. O. Box 4, Davidson, NC ZIP 28036

LOCATION OF PROPERTY Nantz Road (STREET OR COUNTY ROAD)

SUBDIVISION LOT NO. 9 BLOCK NO.

PLOT PLAN

This is to certify that a soil investigation and on-site investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The soil investigation was conducted on that portion of the lot as indicated on the above plot. The permeability rate determined by the investigation was PROVISIONALLY SUITABLE. The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions:

1. A permit to install, construct, alter or repair the septic system must be obtained from the Mecklenburg County Department of Environmental Health prior to the construction of the wastewater treatment system on the soil site.
2. The size of the septic tank will meet or exceed the minimum requirements as determined by the Mecklenburg County Department of Environmental Health based on the information provided on the application for the permit, the soil site characteristics above, and on the size and type of building constructed thereon.
3. This approval is granted only for the system specified in the approved site area unsuitable for system installation on the above plot.
4. The approved system must be installed in accordance with the [illegible] as outlined in the Rules governing the Sanitation of Residential and Commercial Establishments. Any deviation from the approved system installation must be approved by the Health Department prior to construction. Failure to do so may result in the system being rejected as unacceptable.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the newer revised laws, rules, and regulations been in effect on the issue date.
