14328 Kendalton Meadow Dr. Septic Notes

* Existing septic tank, Distribution box, portion of top 2 or 3 drainlines are underneath the porch.
- Second drain line is failing at the end.
- Since we do not have access to the septic tank + D-Box
- A new S.T + D-Box will be needed. Staying 5 ft from the porch foundation.
- With the existing drainfield (Portion of it) being under the porch. We will need to cut off 15 ft from each Line. To keep the drain field sized correctly we will add a new line below the existing system. Since the system is using a D-Box ~~the~~ A new 85 ft line will be needed. To keep equal distribution.

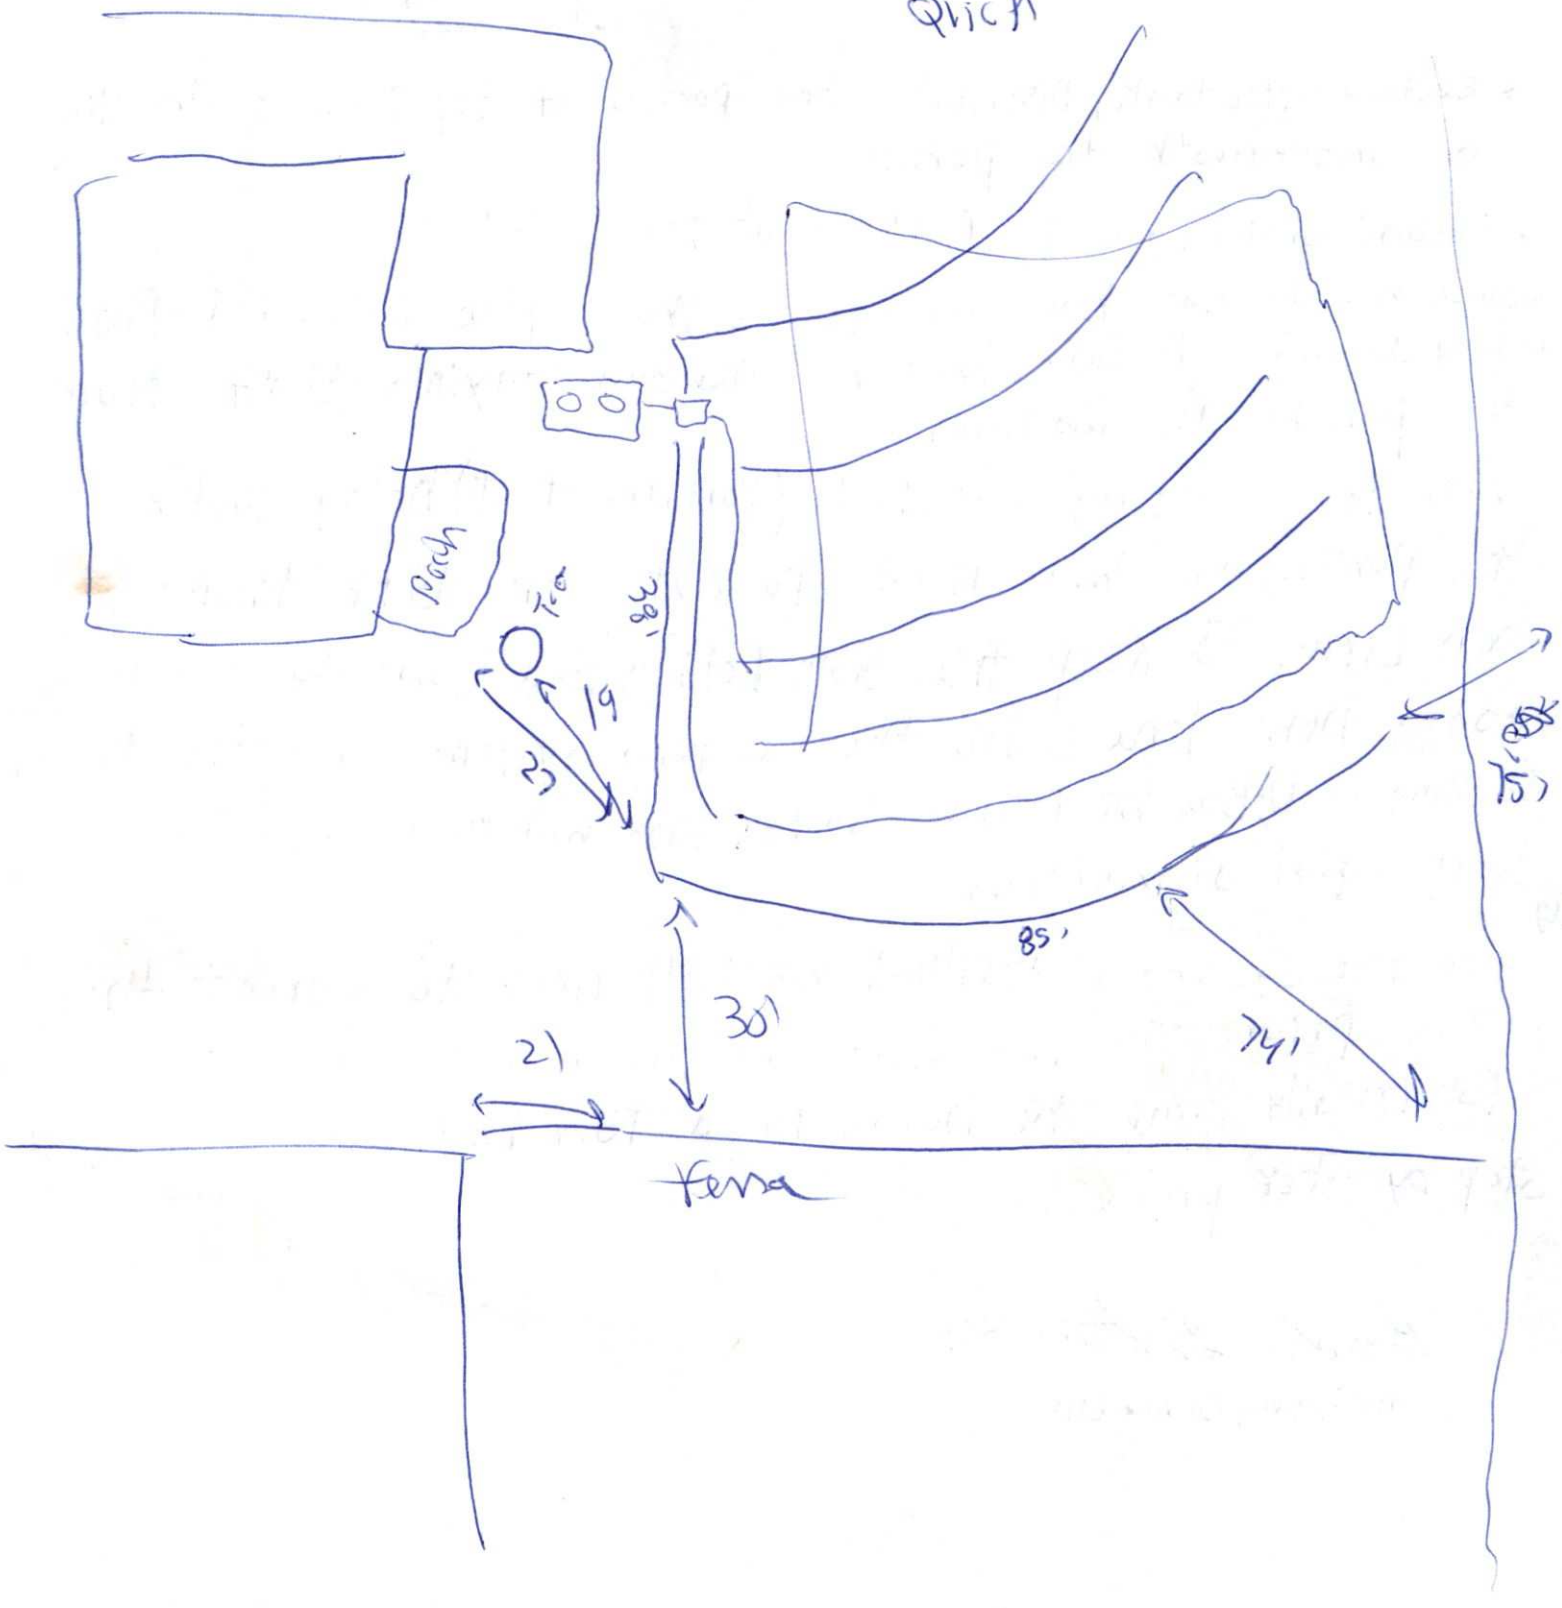

* Since the system is "failing" we will need to Correct this issue prior to. working on the alteration design to Potentially bump the house to a four bedroom.

Step by Step process.
