PLOT PLAN

This is to certify that soil investigation and onsite investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The investigation was conducted on the property of the Lot as indicated in the above plot. **Provisionally Suitable**

The permeability rate determined by the investigation was **60 min/in.** The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions:

1. Approval is granted for a septic tank wastewater treatment system as shown on the Mecklenburg County Department of Environmental Health approved plans. Any change in the wastewater treatment system or the use of the lot may void this approval.
2. The size of the septic tank and absorption area which must be installed will be determined by the Mecklenburg County Department of Environmental Health at the time of application for the permit, the rate obtained above, and on the design procedures and standards in effect at that time.
3. This approval is void if the system is installed in the manner described unacceptable for system installation by the above plan.
4. This approval is based on the soil profile description and percolation tests performed on the lot shown on the plan by the Mecklenburg County Department of Environmental Health and the ground indicated as acceptable for system installation. Any alteration of the soils at the construction site may void approval of the system.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future prior to completion of the system these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules and regulations been in effect on the issue date.
