PLOT PLAN

This is to certify that a soil investigation and percolation test was made by the Mecklenburg County Department of Environmental Health on the above property. The soil investigation was conducted on that portion of the lot as indicated on the above plot plan.

Provisionally Suitable

The permeability rate determined by this method was [illegible] The said lot is approved for the installation of an individual septic tank subsurface soil absorption system with subsurface, soil absorption effluent discharge subject to the following requirements and conditions:

1. A permit for the construction and operation of the wastewater treatment system must be obtained from the Mecklenburg County Department of Environmental Health prior to the construction of the wastewater treatment system in the said lot.
2. The size of the septic tank and the absorption area is to be determined by the Mecklenburg County Department of Environmental Health in accordance with the requirements stated above and on the application for the wastewater treatment system.
3. The septic tank and absorption area must be located on the lot as indicated on the plot plan for the system installation on the above plot.
4. This approval [illegible] of the Mecklenburg County Department of Environmental Health prior to the construction of the system installation or substitute methods of sewage disposal may be required as acceptable for system installation.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect at the time of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new laws, rules, and regulations been in effect on the issue date.
