Hey Malverne,
I thought I was going to have time to get to this today but I didn't. If you have time please reach out to her. If not no worries, I'll do it tomorrow.

Thanks!

Lydia

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good morning.
Please find documents for approval to tap into an existing septic system for the purpose of adding sewer to a storage building.

WindRiver has been the service provider for the system since my purchase in 2015. The leach field was recently flagged for inclusion in your consideration. Page 3 of the application shows the location of the septic, leach field direction and structures. Photographs from the last service in 2019 and the actual location of the septic are included.

Please advise on the application fee and timeline to do an onsite inspection.

Thank you.
Mary EB Smith

3/7/19 System Operating Fine. Normal water level. Moderate top solids. Moderate bottom sludge. Both baffles are intact.

Main line Clear. No filter is present on the tank; current tank is not designed to be used with a filter.

Recommended No Recommendation. Cover(s) secured. Pumped 1200gal septic roots in tank. LM
