Robert F. Phillips, Jr.
10307 Truelight Church Road
Charlotte, NC 28212

Dear Mr. Phillips:

At your request a prepreliminary soil survey was made on property on Truelight Church Road (parcel 137-131-10). The purpose of the survey was to determine site suitability for septic tank systems. A soil map was made and a copy is enclosed.

The unshaded area of the map represent soils that have the required depth, percolation, aeration, drainage, and suitable topography and are therefore predominantly acceptable for septic tank systems.

The portion of the map shaded yellow do not meet one or more of the above listed requirements and are therefore predominantly unacceptable for septic tank systems.

Information in this report is intended for use in preliminary planning. Permits will be issued only on a measured area that has been tested individually and found to meet all of the listed requirements for acceptable soils.

Sincerely,

W. B. Ramsey
