PLOT PLAN

This is to certify that a soil investigation and evaluation has been made by the Mecklenburg County Department of Environmental Health on the lot designated above. The said investigation was conducted on that portion of the lot as indicated on the above plat **Provisionally Suitable**

The percolability rate determined by the investigation was The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions:

1. A permit to install the septic tank system and the soil absorption system for the Mecklenburg County Department of Environmental Health must be obtained by the owner of the property prior to the installation of the wastewater treatment system on the said lot.
2. The septic tank wastewater treatment system which must be installed, the Mecklenburg County Department of Environmental Health prior to the issuance of the permit obtained above, and on the basis of information furnished thereon.
3. The approval is valid only for the system designed for the specific use for which application for system installation on the above lot.
4. The approval is void if the system is not installed in accordance with the plans and specifications on the lot which the Mecklenburg County Department of Environmental Health has approved as acceptable for system installation and which is made a part of the permit issued for the system.

This approval is granted based on the laws of the State of North Carolina, the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of approval; said if at any time in the future prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules and regulations been in effect on the issue date
